Electives	8 to 10 credits

In addition to the credits outlined above, students must also have the following: A) Two credits of the arts. To meet this requirement, students can choose from Band, Choir, Intro to Music, all art classes, Computer Applications I and II, Pinterest Projects, Housing/Design, Ag Practicum, Metals and Floriculture & Landscape Design. B) Two additional credits of science. To meet this requirement students can choose from Health Science Academy, Anatomy, Chemistry, College Chemistry or Physics. Or, students can take any two of the ag or food science classes.

High School Tests

While the following tests are not required for graduation, the State of Minnesota expects all students to take these assessments, to be used both for individual student feedback and for overall school performance monitoring.

- Grade 10: MCA Reading Test and MCA Science Test
- Grade 11: MCA Math Test and ACT college entrance test
