

STUDENT OF THE MONTH

Hailey Stenzel

Congratulations to Hailey for being selected Student of the Month by the Math Department. Mrs. Schaub chose Hailey because she is a top-notch math student because she works hard, is not afraid to ask questions and is always willing to help others in the classroom.

Hailey is the daughter of Curt and Becky Stenzel from rural New Richland. She is the youngest in her family with four older brothers to grow up with and keep her tough! Hailey has been a lifer at NRHEG, serving all of her years as a Panther. Her best memory is the lifelong friends she has made.

Hailey is an active member with the NRHEG FFA, where she has served as vice-president and secretary. She also has helped with the FFA Barnyard. Hailey plays the clarinet for our Pep, Concert and Marching band. Her service to our community includes helping with the food shelf, raking leaves and helping at her church.

Hailey's place of employment is in Waseca at McDonald's. There she works at the front counter and at the back booth; that's the drive-thru area where she takes money at the first window and gives you your food at the second window.

In the fall Hailey will be attending South Dakota State University. Her plans are to pursue a career as a veterinarian.

When asked to tell us about herself she said she likes to ride and spend time with her two horses, Tom and Z. Plus she has three dogs, Blackie, Isabel and Turbo. AND she has four brothers, Chris, Luke, Zach and Rob! Hailey likes to read books, like the Percy Jackson Series.

When asked to share something surprising most people probably don't know about her is she has four brothers and many people don't know they are related.

Her words of advice to her under-classmen are: Don't do stupid stuff and you'll make it through high school, hopefully!
