Dear Parents,

My goal with this schedule is to try and make it similar to a regular school day and have interactions and work time with peers. This may seem like a lot of screen-time, but I want to point out that much of the time it will only be part of their background to receive help and work with peers. Much of their work will still be done with paper and pencil, or reading books.

I know that some of your children will not be able to meet during the day. All video lessons and assignments will continue to be posted in the Seesaw inbox where you find the weekly planner. Students can work on their own.

Assignments need to be completed by 9:00 pm on the day they are assigned. You may work ahead, however assignment on Seesaw will be posted on the day they are assigned. Attending google meetings and/or completing assignments will count for student attendance. Google Meeting times will be scheduled and students will be invited via their email.

Thank you for all of your hard work. I appreciate your patience and understanding as we work through this.
