

NRHEG Elementary

Acceptable Use Policy & Agreement

Using school technology is a privilege as it is one of many tools used while at school for my growth and development.

I will gain access to only my materials or those I am given access to by a staff member or consenting student.

I will use technology to keep my identity and accounts confidential (safe).

I will not violate copyright laws or licensing agreements.

I will get verbal or written permission to take video or audio recordings, or photos of another student or staff member.

I will not knowingly damage or impair a device's system hardware, software, or wiring.

I will be respectful when using a device or the school's wifi. I will not view, send, or post abusive, crude, incendiary, illegal, racist, or threatening items.

I will be responsible for any fees related to physical damages done to my device, including but not limited to screen and keyboard. **Costs up to \$50 may be incurred for damages.**

* The NRHEG MSBA Policy 524 can be located on the NRHEG website *
